OVER THE RIDGE

**Event Name: A Workshop on Basics of Photography**

# Short Description of the Event

**About the Workshop:** A good photograph is the one that communicates a fact, touches the heart and leaves the viewer changed as a person for having seen it. Photography is an art form, but not the kind which we cannot learn. Since photography is an art form, it has less to do with the things you see and more to do with the way you see and pursue them. The basic objective behind the workshop is to let photography grow not only as a hobby but also as a profession. It is an attempt to provide correct guidelines to the ones who are passionate; and the definition of a passionate photographer isn't restricted to the ones who own a DSLR; but to every single person who loves to capture and wants to learn.
